

ABOUT THE AUTHOR:

Andrew Karanu is a Grade Eleven Student at the Aga Khan Academy, Nairobi, Kenya. He is currently undertaking the IB Middle Year Programme (MYP) and hopes to graduate with an MYP Certificate in the year 2020. Andrew's fascination for wildlife from an early age, particularly the Big Five and especially the Rhino led him to undertake his Personal Project (a requirement for MYP) on the topic "Conservation of Rhinos in Kenya". His love for photography and film making enabled him to create an interesting collage of photos into this photobook as well as a short film on the topic. His hope is that the proceeds from the sale of this photobook can go into efforts being made by the Ol pejeta Conservation in its Rhino conservation endeavors.
